

### User Maintenance

The 2-in-1 Straightener and Hot Brush is designed for household use and is virtually maintenance-free. No lubrication is needed. Keep all vents and openings clear of lint and other debris. If cleaning becomes necessary, disconnect the appliance from the power outlet. Allow the appliance to cool and wipe exterior with a cloth. If any abnormal condition occurs, allow to cool and return to your place of purchase.

### Two-Year Warranty

Conair Australia Pty Ltd. will repair or replace (at our option) your appliance free of charge for twenty-four months from the date of purchase if the appliance is defective in workmanship or materials. This warranty is an additional benefit and does not affect your legal rights. To obtain service under this warranty, please fill in and return the Warranty Registration as instructed.

## IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety instructions should always be followed, including the following:

Polythene bags over product or package may be dangerous. To avoid danger of suffocation, keep this wrapper away from babies and children. This bag is not a toy.

**DANGER:** Unplug unit when not in use. All appliances are electrically live even when switched off.

**WARNING:** This appliance must not be taken into a bathroom.

- Do not immerse in water or other liquids. Do not use in the bath, or near basins or other vessels containing water.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- Take care to avoid contact between the hot surfaces of the unit and the skin, paying particular attention to the face, neck and hands.
- This appliance is not intended for use by young children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.

**IMPORTANT:** Always unplug the appliance when not in use or before cleaning. Do not leave unattended when plugged in or switched on. Do not place on any heat-sensitive surface and always allow to cool before storing away.

- Do not use any attachments other than those supplied by Conair Australia Pty Ltd.
- Use this appliance only for its intended use as described within this instruction booklet.
- This appliance is not intended for commercial use.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Keep the cord away from heated surfaces.
- Do not use an extension cord with this appliance.
- Do not use this appliance if the supply cord is damaged. In the event of damage, discontinue use immediately and contact your dealer for instructions on returning it for examination or exchange.
- After use do not wrap the cord around the appliance as in time this may cause the cord to fracture. Coil cord loosely by the side of the appliance in storage.
- Always ensure that the voltage to be used corresponds to the voltage marked on the unit.
- For additional protection, the installation of a residual current device (RCD) with a rated operating current not exceeding 30mA is advisable in the electrical current circuit supplying the bathroom. Ask your installer for advice.
- Do not use on wet hair.
- Do not use liquid products on or with this product.

## VS Sassoon 2-in-1 Straightener and Hot Brush

The VS Sassoon 2-in-1 Straightener and Hot Brush features two stylers in one, offering you more versatility and styling choice. Both the hot brush and straightening plates are titanium- and ceramic-coated to deliver an even high heat and a smooth, glossy finish.

- ultimate 2-in-1 styling
- titanium and ceramic-coated barrel and plates
- up to 180°C high heat
- 30 variable heat settings
- cool tips
- uniform heat recovery system – maintains constant temperature

### How to use your VS Sassoon 2-in-1 Straightener and Hot Brush

Styling versatility is now made even easier.

- Unlock the release mechanism on the cool tip to open the barrel ready for styling.
- Make sure the touchpad is in the ON position.
- Section hair evenly and comb each section.
- Place hair section between plates and press together.
- Slowly guide plates down hair strand and repeat as necessary until smooth.

**WARNING: Do not use on wet hair. Do not use liquid products while handling or styling with this product.**

### Hot Brush Curling Basics

- Lock the mechanism on the cool tip to keep barrel closed while curling.
- Make sure the touchpad is in the ON position.
- Section dry hair evenly and comb each section before winding. Place the ends of the section onto the hot brush barrel and wind up or under depending on the direction of desired curl or flick.
- Wind the hair up as far as you want it curled, being careful not to let the appliance touch the scalp. Hold in place for 8-12 seconds depending on the texture and length of your hair. For tighter, bouncier curls roll less hair. For looser, flowing curls, roll more hair.
- When finished, unwind the hair strand. To set the curl, do not comb or brush through the hair until it cools.

### How to use the 30 variable temperature settings

The 30 variable instant heat temperature settings provide variable heat for many different hair types. These settings allow you to choose the required temperature setting according to your particular need.

Temperature Setting Guide	
Variable Temperature Control Settings	Hair Type
1 – 5 (Low)	Delicate, thin, easy-to-curl hair
6 – 10 (Medium)	Average to thick or treated hair
11– 15 (Med-High)	Thick or wavy hair
16– 20 (High)	Hard-to-style hair
21– 30 (Maximum)	Very resistant hair

### The Uniform Heat Recovery System

This appliance features a mica heater and a uniform heat recovery system. Both work to help maintain a constant heat by quickly and continuously delivering a constant surge of power to ensure optimal styling results. This system provides consistent styling power so that every strand of hair is set with the same level of heat and comes out the same way, for a perfect, flawless finish.

**CAUTION: The titanium and ceramic-coated barrel on this appliance will become very hot within a few seconds of heating up. Take care not to let the appliance make contact with the skin, in particular, the eyes, ears, face and neck.**

### What is Titanium-Ceramic Technology™?

Titanium-Ceramic Technology™ exhibits excellent high temperature stability, resulting in superior straightening. Titanium is a high-strength, lightweight transition metal that provides lustrous and non-magnetic qualities – it reduces static electricity, resulting in a frizz-free, glossy finish. The same technology is used in the aerospace industry for its stability and heat distribution properties. Combined with an extremely smooth finish for decreased friction, the titanium plates deliver high performance straightening from roots to ends in one pass while preventing hair damage.
