

FOR MEN

LITHIUM PRO STUBBLE

Model VSM7898A

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety instructions should always be followed, including the following: Polythene bags over product or package may be dangerous.

To avoid danger of suffocation, keep this wrapper away from babies and children. This bag is not a toy.

DANGER: When the unit is used in a bathroom, unplug after use since the proximity of water presents a hazard even when the unit is switched off.

- Take care to avoid contact between the moving blades of the unit and the skin, paying particular attention to the face, neck and hands.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- **IMPORTANT:** Always unplug the appliance when not in use or before cleaning. Do not leave unattended when plugged in or switched on. Do not place on any heat sensitive surface and always allow to cool before storing away.
- Do not use any attachments other than those supplied by Conair Australia Pty Ltd.
- Do not use the appliance with damaged or broken attachment combs or with any teeth missing from the blades, as injury may occur.
- Use this appliance only for its intended use as described in this instruction booklet.
- This appliance is not intended for commercial use.
- Never drop or insert any object into an opening.
- Ensure appliance is switched off before plugging into the power outlet.
- Do not place appliance on any surface while it is operating.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Keep the cord away from heated surfaces.
- Do not use this appliance if the supply cord is damaged. In the event of damage, discontinue use immediately and contact your dealer for instructions on returning it for examination or exchange.

- After use do not wrap the cord around the appliance, as in time this may cause the cord to fracture. Coil cord loosely by the side of the appliance in storage.
- Always ensure that the voltage to be used corresponds to the voltage marked on the unit.
- For additional protection, the installation of a residual current device (RCD) with a rated operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
- **Warning:** If the LED displays the words " Hi " or " Lo ", please check that the adaptor input voltage is 4.5V1A or Adaptor "CA12". If the LED displays the " Er " symbol, please stop charging and contact the Customer Service Hotline.

LITHIUM PRO STUBBLE

Maintain your look, everyday with the ultimate in stubble control technology.

The VS For Men Lithium Pro Stubble has 24 ultra-precise length settings, so you can maintain your preferred facial hair style at all times. Whether you're looking for a short shadow look, a longer stubble look, or even a short beard, the Lithium Pro Stubble is the ultimate in stubble control. The motorised length control gives precise adjustment from a 0.4mm shadow so you can get exactly the look you want. It has an advanced floating contouring head that tracks the curves of your face for exceptional accuracy and comfort to give you an ultra-precise stubble shave. Powered by lithium ion technology, for reliable cordless use, even at lower charge levels. It is 100% waterproof. It can be washed under the tap or even used in the shower.

FEATURES

- Advanced floating contouring head tracks the curves of your face for exceptional accuracy and comfort.
- Motorised length control from a 0.4mm shadow with precise automatic adjustments with memory function.
- Lithium-Ion power performance for reliable cordless use, even at lower charge levels.
- Advanced blade technology with electro-chemically sharpened blades for extreme sharpness and durability.
- LED screen displays selected cutting length and charge time remaining.
- Protective comb guide delivers ultimate length consistency, removable for easy cleaning.
- Rapid charging system, 90 minute charge provides 60 minutes use or 5 minutes quick charge for a single stubble shave.
- Shaver-style power lead for convenient rechargeable use in the bathroom.
- Ergonomic design with curved body for easy control and complete comfort in use.
- 3 year warranty.

INSTRUCTIONS FOR USE

IMPORTANT : CHARGING

First time use

- The Lithium Pro Stubble is so easy to use, but before you do anything you must take your time to charge the unit for 3 hours before its first use. Even if you want to use it plugged in to your shaver socket, this initial super-charge ensures optimum power performance to give smooth fast trimming every time.

After the first charge a full charge will only take 90 minutes. Maximum battery capacity will only be reached after 3 charging/discharging cycles.

- Connect the power adaptor to the socket on the underside of charging stand.
- Plug the power stand adaptor into a suitable bathroom shaver socket.
- Always check that the charging indicator on the LED comes on when you place the product in the power stand.

Regular charging

- A full charge will take 90 minutes and will supply enough power for minimum 60 minutes continuous cordless use. the approximate remaining using time is shown on the LED display.
- In order to maintain the optimum capacity of the rechargeable batteries, the appliance should be recharged for 3 hours every 3 months approximately.
- The Lithium Pro Stubble comes with a quick charge feature. A 5 minute charge will provide enough power for approximately 3 minutes use.
- When the unit is charging the display lights up for a few seconds showing the running time remaining. The minutes will flash increase until it reaches maximum capacity of 60 minutes.
- When LED display has less than 5 minutes left, the time symbol indication will change to red.

Preparation for Use

Always inspect the Lithium Pro Stubble before use to ensure the cutting head is free from hair and debris and is running smoothly.

Operation

To switch the super stubble on, press the O/I button. The LED will also show the selected cutting height and approximate usage time remaining.

After 10 seconds, the blue LED for the usage time remaining will be switched off but cutting height LED will be kept illuminated whilst the motor runs. When there is approximately 5 minutes left shown on the LED display, the time symbol will change colour to red and will also start to flash. When the LED displays «00», this indicates that the unit needs to be recharged, however it may continue to run for a short while after.

Using the comb guide

The comb guide allows you to change the cutting length of your trimmer. You'll need to experiment to find your preferred length, but as a guide, 0.4mm will give you very short stubble, whilst 1.6mm will give you a longer stubble look. 2mm+ will give you a short beard.

- Ensure the comb guide is correctly positioned by pushing the comb guide gently downwards to secure into place.
- Use the digital touch control “up” or “down” buttons to adjust the telescopic comb guide to the required length.
- The cutting lengths are displayed on the LED screen in “mm” – scroll through the available length settings with the digital touch controls. There are 24 length settings available: 0.4mm-5.0mm in 0.2mm increments
- Select your required length – the length setting will then remain displayed on the LED screen.
- Push the power button to switch the Lithium Pro Stubble on.

Memory Function

This stubble trimmer has a memory function that stores the last chosen length setting. When the unit is switched off the comb guide returns to 0.4mm position. When the trimmer is switched back on the comb guide automatically moves up to the last chosen length setting.

Using the trimmer without the comb guide

- Using without the comb guide is ideal for detailing/shaping and general tidying of edges.
- To detach the comb guide, gently hold the trimmer in one hand and with your thumb and index finger push up on each side of the comb guide (fig. 1). Flip the comb guide to the back of the unit and lock it into position by clicking it securely onto the fastener on the back of the handle (fig. 2).

Fig. 1

Fig. 2

- Switch the Lithium Pro Stubble on by pushing the “power on” button. The LED will illuminate and the blades will start to move.
- If you are looking for an ultra-close finish, you can use the trimmer without the comb guide. This will give you an extremely short cut.

IMPORTANT: please note when using the trimmer without the comb guide, the cutting length will be below 0.4mm. The length setting shown on the LED screen will no longer be relevant when the comb guide is detached.

Travel lock feature

- The VS For Men Lithium Pro Stubble has a travel lock feature which will lock all buttons from activating accidentally.
- To activate the travel lock, press and hold the I/O button for 2 seconds until the time display counts down from 5 to 1. When the countdown reaches 1, the lock signal is shown.
- To de-activate the travel lock press and hold the I/O button for 2 seconds until the time display starts to count down from 5 to 1 and the motor switches on and starts running. The travel lock is now deactivated.
- When you place the unit in the charger, the travel lock is automatically deactivated.

Lithium Pro Stubble Top Tips

- Use on clean, dry hair.
- If possible, when using for the first time, try and grow your facial hair for a few days before cutting so you can trim down to a level that is best for you.
- Set the cutting length as required.
- It is always best to start cutting with a longer length first, then trim again if the length is longer than desired.
- Hold the Lithium Pro Stubble against the hair, the teeth of the comb guide should be pointing upwards and should be flat against the face.
- Move the trimmer upwards through the hair, a little at a time, against the direction of hair growth. The floating and contouring head will follow the curves of your face to ensure both accuracy and comfort.
- The Lithium Pro Stubble will work most effectively when cutting through the hair at its own speed – never force through the hair. You may experience a little resistance when trimming the neck area, where hair is thicker and grows in many different directions. This is completely normal.
- Just like shaving, extra time should be given when trimming under the neck area, as again this is where hairs grow in many different directions.
- Never switch the trimmer off whilst in the hair.

CLEANING & MAINTENANCE

- Regular cleaning will maintain the high performance of your Lithium Pro Stubble.
- Switch off and remove the power cord if connected.
- Detach the comb guide by gently lifting the front of the comb guide from both sides and flipping it over to the back of the unit and locking it into position by clicking it securely onto the fastener on the back of the handle.
- Use the cleaning brush supplied to brush away any hair and debris. Do not use a sharp object to clean the trimmer blade.
- The blades can be removed to aid cleaning.
- To remove the blades hold the handle of the i-stubble with one hand, place your thumb underneath the blades and push the blades away from the handle.
- Gently blow away any hair trapped beneath the blades.
- The blades can be rinsed under the tap. After rinsing the blades they may need to be oiled. See oiling instructions below.
- Before re-attaching blade to the trimmer, ensure the blades are dry and moving blade is in the centre. Please refer to Fig. 3.

Fig. 3

- Please do not use any chemical liquids when cleaning the trimmer.
- Ensure you clean the blades after each use and before storing away.
- It is highly recommended to oil the blades from time to time with the oil provided. This ensures optimum cutting performance. For the first use you will need to use the oil supplied with the product, unscrew the cap and cut off the very end of the plastic tube with a pair of scissors to release the oil. To oil the blades ensure the unit is switched on. Gently squeeze the oil tube and apply 2 drops of oil onto the blades. Leave the unit on for a further few seconds to allow the oil to thoroughly spread the length of the blades. Switch off the unit and remove any excess oil by gently dabbing with a cloth.

BATTERY DISPOSAL

To minimise hazards to health and the environment at the end of this product's life, laws dealing with Waste Electrical and Electronic Equipment (WEEE) and The Waste Battery Directive require you to dispose of this product at a suitable collection facility where it will be sent for appropriate recycling. Please contact your local authorities for more details on recycling and safe disposal of these in your area.

LIMITED THREE YEAR WARRANTY

This product is subject to the express warranty given on the warranty card included with the product, as may be amended by reference to and in accordance with the terms of the warranty cards displayed on VS For Men website www.vsformen.com.au

Please retain a copy of your purchase receipt as proof of purchase within the warranty period.
